Gym Renovation Update

Well, things were progressing nicely and now have hit a bit of a road block. There is another layer of tiles under the floor in the gym. These tiles are the original smaller tiles that were manufactured with asbestos. We've had two companies who specialize in asbestos removal look at the floor and will be getting bids from them and at least one other company. They have assured us that in our current situation and during any removal, there are no issues or dangers with regards to the asbestos. We are continuing to look at our options for removal. The installation of the new gym floor and bleachers are currently still planned in early November. While we are anxious to have everything completed and a fantastic new floor installed, we need to be patient. If you have any questions or comments, feel free to let me know.

Mr. Kellar

Chapel Offering Project

Chapel Offerings for the months of September and October are going to help end world hunger and poverty through the ministry of Heifer International. Student's offerings are used to purchase animals for families and villages abroad. The more money that is raised the bigger the animal that can be purchased. Currently the students have brought enough money to purchase a hive of honeybees. We're hoping to be able to raise enough money to purchase a cow for a village. Please encourage your student to bring offering money for chapel services and Faith Family meetings to help this worthy ministry.
